Seating System

## Kiss

Karma Integrated Seating System

### Born To Fit The Most Challenging Demands / Born To Fit Better Solutions

At Karma, every part of the users' lifestyle is taken into account while the seating system is being created. The brand new **KISS** (Karma Integrated Seating System) offers numerous thoughtful functions that make daily life easier. The unique Push-2-Flip design is built in all supporting accessories to lighten the load of care givers while transferring.

A fully adjustable seat frame, multiple power features and various accessories have made KISS the best choice in assisted mobility devices.

# A New Chapter of the Balance of Performance and Individual Clinical Needs

- Multiple power features- 50° tilt, 170° shearing force reduction recline, 30cm lift, power elevating legrest.
- Modular supporting accessories for advanced positioning.
- Push-2-Flip design for easy operation and transfer.
- Easily adapted to different chassis.

### Power Lift

-Conquer the challenges of different height in daily life by 30cm lift.

### Power Tilt

- 50° tilt provides perfect share of pressure loading from bottom to back and enhances the posture stability.  
-The advanced center of gravity system features the most safety and stability.

### Power Recline

-With power elevating legrest and 170° shearing force reduction recline, KISS provides the best seating comfort and pressure relief.

## Fully adjustable seating system that grows with the user

KISS allows for width, depth, back height and angle adjustments to be made easily and quickly in the field, which can grow with the client.

	KISS	KISS Junior
Seat Width	16"- 20"	12"-16"
Seat Depth	16"- 20"	12"-16"
Backrest Height	20"- 22"	16"-18"
